

Your jeans processing universe

## Vision

Working on making Egypt the pioneer of the jeans industry worldwide

## Mission

ensuring high quality standards for our product to provide the market with trustable and sustainable products

Jeans is like gold ... the blue gold

## A word of Chairman

The continuous researches about what's new in the labs and connecting with the highest specialized experts makes us see the jeans like gold, the blue gold. that's because what it needs from experience and art

Now our research and work makes us in a level we are proud of and that's according to the certification of our Egyptian and foreigner clients

To reach to top and keep this success considering our clients trust, we wouldn't stop looking for the development and creativity of the art technology of jeans and garment processing in Egypt

That's why we El Sham company put more than 30 years of experience in the Egyptian market to compete with the local product in the worldwide market

## About us

El Sham company for jeans washing and cotton processing was established at Halab, Syria in 1985 And since this time we are specialized in the field of jeans processing and all kind of cotton products

In the beginning of the new millennium the year of 2000 the company moved to Cairo, Egypt that's because it's the biggest city in the Middle East. To achieve the best technical success with all our technical experience and mass production

and since this time we are developing our quality of production by using the best foreign experience in the field of jeans and cotton processing with all its new technical support
